SERVICE START DATE: _____

EMERGENCY CONTACT: _____

The customer agrees to abide by the regulations and ordinances established for water service that are now (or that may become) in force.

The customer will install and maintain at **HIS/HER OWN EXPENSE** a service line(s), which will begin at the property line and extend to the structure being served. Ridgeville Water Department will not be responsible for maintaining or servicing these lines.

The Ridgeville Water Department will have final jurisdiction in where the taps are located, but will attempt to place the tap(s) where it will be of best service to the customer.

Failure to pay service charges for water use will result in discontinuance of service in accordance with the ordinances and regulations that are enforced.

(COST PLUS CHARGE) If the cost to provide water service to the customer exceeds the rates for water service, then the customer is required to pay the additional cost.
